INSTRUCT NEW MEN

LESSONS TO BE GIVEN BEFORE GOING TO CAMP.

COURT HOUSE TONIGHT

All 1918 Registrants Notified to Meet to Be Advised of Requirements of Army Service.

In compliance with an order from the office of the provost marshal that the men in the quotas that leave for training camps be given preliminary instructions regarding the duties they will be called on to perform, the things they are to expect and the things to avoid, the local draft board has issued a call for the sixty-one men who will go Thursday, to report at the court house this evening, when they will be addressed by a member of the board and also by persons named as advisors. Preliminary instruction will be given both Monday and Tuesday evening, together with instruction in drilling by the Home Guards for all who desire it. A member of the home service board of the Red Cross, will also advise as to method of securing insurance, allotments and other things.

In addition to other instruction, Rev. C. Emerson Miller will show pictures of Fort Doniphan, taken on a recent visit there, and will explain the operation of the cantonment. It will be practically a repetition of his interesting lecture given a few weeks ago for the Red Cross.

A circular has been received by all draft boards asking that instructors

BRING SCHOOLS TO STANDARD

R. C. Seal, of the Township Sunday School Association, Starts Round of Schools in Efficiency Work.

R. C. Seal, president of the Polk Township Sunday School Asociation, has started in to make each of the ten Sunday schools in the township a 100 per cent school, according to the standard of the International Sunday School Association. Judging from the start made yesterday he will go over the top. Taking with him Dan R. Baker, Mrs. L. E. White, and Miss Laura Hawkins, he met with the Christian Sunday School at Bedison yesterday morning, and brought that school up 40 per cent, making it a 100 per cent school.

Mr. Seal believes whatever is worth doing is worth doing well, and doesn't expect to stop the campaign until every school in the township is a standard school. He has a most capable and faithful corps of officers to assist him in this great work. Next Sunday morning they will go to Mt. Ayr, and bring that school up to standard. If the other township officers will do likewise, Nodaway County will occupy first place at the state convention at Kansas City this fall.

WHY NOT NODAWAY?

RICHEST COUNTY IN STATE IS WITHOUT A FARM AGENT.

GOV'T PAYS THE SALARY

All That Is Needed to Secure One Is Petition from Farmers and Appropriation from County Court.

Usually anonymous communications are not worthy of much consideration, E. M. Claypool, secretary of the Commercial Club believes, but in reply to one recently received regarding the possibility of a County Farm Agent for Nodaway county an explanation is being given. The communication came on a red post card, and was a clipping. It said:

"Webster county farmers have organized and will employ a farm agent. This is the thirty-seventh county in Missouri to so organize. —Springfield Leader."

Underneath was written, "Nodaway County? When?"

In direct answer it may be said that Nodaway county may organize today if she desires. The government and the state are offering financial and other inducements. The matter is checked up to the farmers and to the county court. In some instances another organization has filled in when the county court was unfavorable, but it is believed that the court of Nodaway county is in sympathy with the work of a County Farm Agent because of the effect upon the increased production resulting from the work of such an agent.

If for no other reason Nodaway

FARM AGENT HUSTON LEAVES

Nodaway County Loses a Valuable Man Who Has Proven His Ability and His Usefulness.

J. M. Huston, district farm agent, who has made Maryville his headquarters while working over three counties, is preparing to leave for Maysville, where he has been made county agent for DeKalb County, an organization of farmers and business men of the county having chosen him for the position. At the direction of Federal Agent Ross, he is leaving this week to take up his work there.

It is with genuine regret that Nodaway County gives up Mr. Huston, who has also proved his ability and usefulness in other ways than an advisor in agriculture, and with other counties in the state getting the pick of the best men, it is the expression of many business men and farmers that Nodaway County ought to have a farm agent at once.

A MARYVILLE AUTHOR

HOMER CROY, IN HARPER'S, TELLS ABOUT HIMSELF.

BEST FIGHTER IN TOWN

Although "Pretty Busy These Days," He's Always Ready for an Automobile Ride With a Friend.

Homer Croy, author of the humorous novel of boy life, "Boone Stop," when asked by Harper's to tell something about himself sent the following:

I was born in Maryville, Missouri, between the water tank and the chautauqua grounds.

I was the best fighter in town. I never got licked — unless there were four or five of them and then if they gave me half a chance I could outrun them. Get four or five after me, all bigger than I was, and I was pretty good runner. I was always practically sure of coming out on top. If I didn't lick them I'd beat them running. Nobody could get ahead of me.

I wasn't much in school but you get me out behind the livery barn and there wasn't another fellow in town who could touch me. There wasn't anything I liked better than to take some of the smart Alecs who were always trying to get ahead of me in school and get them out behind the Red Star and put them where they belonged.

Then I'd go to the pump down by the drug store and wash up and not say anything about what happened to my parents. They wouldn't know anything about it unless the boy's parents

FALSE ADVERTISING CHARGED

Federal Trade Commission Files Complaints Against Four Nationally Known Concerns.

Washington, July 22.—Complaints against four nationally known manufacturing firms were filed today by the Federal Trade Commission on the charge of false advertising, misrepresentation and unfair trade practices. The Goodyear Tire Company was charged with forcing dealers to maintain excessive stocks of tires, misrepresenting the Goodyear service, advertising that service stations were in service when they were not. The Autostrop, the Kryptok Sales Company, and the D. M. Ferry Seed Company were charged with manufacturers' sale price maintenance methods through the intimidation of dealers.

Mr. and Mrs. E. L. Craig, of Glenwood, Ia., are visiting their son, W. D. Craig and wife, of near Graham, and their nephew, J. J. Linthicum and family.

AMERICANS DRIVE THE HUNS BACK

ENEMY MAINTAINS STUBBORN RESISTANCE TO PREVENT RETREAT BECOMING ROUT.

U.S. TROOPS TAKE 6,000 PRISONERS IN 5 DAYS

Fearing an Allied Advance to Marne, Teutons Are Pouring in Big Reinforcements—Withdrawing Artillery to Point North of Soissons.

With the American Army at Marne, July 22.—The Germans continue a gradual retirement northward from the Marne, maintaining a stubborn resistance on their flank to prevent the retreat becoming a rout. At Chateau Thierry the American positions were heavily shelled throughout the night.

The American cavalry was used for the first time yesterday in reconnoitering ahead of the infantry and pursuing the Germans north of the Marne. The Americans crossed the river on the same bridges that had been used by the Germans and are pushing on, driving the enemy from most of the positions they have occupied.

Washington, July 22.—American troops with undiminished vigor are forcing the enemy to yield bitterly contested positions, General Pershing reported in his communique of July 21, published today. In the past five days the Americans have taken 6,000 pris-

"BEAST OF BERLIN" TONIGHT

The Kaiser's Bestial Ego Filmer by Rupert Julian Will Be Shown at the Empire Theatre.

"The Kaiser, the Beast of Berlin," Rupert Julian's masterful screen production of the intimate life of William II., Belgium before the war and during its invasion by the Germans, the habits and crimes of the King of Prussia and Emperor of Germany, with a thrilling forecast of the end of the present world conflict, will be shown at the Empire Theatre tonight.

"The Kaiser" is a motion picture, stupendous in its treatment of present-day world history, in its presentation of heretofore unoffered truths of the personal life of the German demon and the atrocities of his army and navy, that have been filmed after exhaustive study of historical facts and incidents, a study of more than a year by Rupert Julian, the famed screen director and actor, who himself presents a remarkable rendition of the role of the Kaiser, remarkable in its close attention to every detail of make-up, costuming, mannerisms, habits and exaggerated ego of the ruler who has plunged the world into mourning to advance personal ambitions and has sacrificed the honor of nations, homes, men, women and children.

The picture chronicles in vivid truthfulness Belgium and her inoffensive peoples before the invasion of the German hosts, shows in horrible but authentic pictures the treatment of the peasants by the German army as it plows through Belgium and its inhabitants, takes the spectator into the Imperial Palace and the chambers of the Kaiser and unfolds startling, repugnant insights into his private life.

His receipt of the news of the sinking of the Lusitania, of the American Ambassador's statement that the United States would consider a continuance of the U-boat campaign as unfriendly, of the declaration of war by the United States and other momentous incidents of present-day history are truthfully and faithfully reproduced and a stupendous thrilling forecast of the end of the present war provided.

Plymouth Rock Lead.

Reports recently at the University of Missouri College of Agriculture from more than 6,500 farmers in practically every county in Missouri shows that 30.5 per cent of the farms keep Plymouth Rock chickens, 20 per cent keep mixed breeds, 18.2 per cent raise Rhode Island Reds, and 15.5 per cent raise Leghorns. Wyandottes and Orpingtons are also prominent breeds. Other breeds reported in small numbers are Langshangs, Anconas, Minorcas, Brahmas, Cochins, Campines, Buttercups and Games.

BALL GAME AT FAIR GROUNDS

Home Guards' Event This Evening at 6:30 Will Be Followed by Exhibition Drill by Company.

Hurry to the Fair grounds this evening if you want to see the championship baseball game of the season between the two platoons of the Home Guards. The umpire will call play at 6:30 o'clock and the swatfest will be on. The heaviest hitters and truest peggers on both sides will be seen in action, and when the game is over an exhibition company drill will be given—provided the casualties resulting from the battle of bats leaves enough men in the ranks.

No admission will be charged at the gate, but during the game a collection will be taken, which will go to the company fund from which supplies are purchased. Ladies will not be asked to donate to the fund.

With the game scheduled to start at 6:30, those who want to attend the picture shows and other events will have plenty of time.

WHY NOT NODAWAY?

(Continued from page 1.)

county should have a farm agent because it is the richest county in the state. That a county in which more cattle, hogs and corn are raised year after year than in any other county in the state should be lagging in any movement tending to increase its richness is a blot on a great record.

So important has the government believed a county farm agent to be, that Mr. James M. Huston has been stationed in Maryville for several months to act in such a capacity. Indeed, it seems to be a sorry plight, that the richest county in the state should be so backward that the Federal government deemed it necessary to send a man into the county to help.

Nodaway county can have a county farm agent at very little cost. The government will pay $1,800 a year for three years on the salary. The requirements to receive this aid are simple and small. At least 350 farmers must sign an agreement to pay at least $1 a year for three years toward the support of the county agent. The county court in most counties takes care of the transportation and office expense which averages between $700 and $1,000 per year, with an appropriation for the amount each year for a three year period. The state will send several men from whom selection may be made.

Usually things which are good for our neighbors are good for us. Buchanan county has had an agent for several years. Andrew county has recently organized a County Farm Bureau, and, as soon as the county court makes its appropriation, will hire a man. DeKalb county two weeks ago elected J. M. Huston as county agent. There are forty other counties "in."

Important Notice

The United States government through the War Industries Board, has issues the following order:

On account of the shortage of materials, the question of the supply of paper is becoming acute and the use of paper must be economized to the greatest possible extent.

It is necessary that all newspapers which publish a daily and weekly edition put the following prelimiaary economies into effect July 15, 1918.

Discontinue the acceptance of the return of unsold copies.

Discontinue the use of all samples or free promotion copies.

Discontinue giving copies to any body except for office-working copies or where required by statute law in the case of official advertising.

Discontinue giving free copies to advertisers.

Discontinue the arbitrary forcing of copies on newsdealers (i. e., compelling them to buy more copies than they can legitimately sell in order to hold certain territory).

Discontinue the buying back of papers at either wholesale or retail selling price from dealers or agents, in order to secure preferential representation.

Discontinue the payment of salaries or commissions to agents, dealers or newsboys for the purpose of securing the equivalent of return privileges.

Discontinue all free exchanges.

The publishers of the DEMOCRAT-FORUM deem it their duty to comply with the above in all respects so for as it is applicable to this paper. Our friends will therefore observe that all free papers are discontinued. This applies to everybody under all circumstances, and is necessary to the continuance of newspapers, the supply of paper being unequal to the demands. This order by the War Industries Board affects all newspapers in the United States.

A SUGAR WARNING

"REPEATERS" ARE HELPING TO CREATE POSSIBLE FAMINE.

STICK TO RULE IS URGED

Retailers Are Warned Against Selling to Other Than Regular Customers —May Force Record Keeping.

Special to The Democrat Forum.

Columbia, Mo., July 22.—Retail grocers are reporting to the Missouri division of the food administration that some housewives, becoming panicky over the present sugar crisis, are traveling from store to store and buying sugar that they may not find themselves without a supply if an actual famine should come.

These "repeaters" are helping to create a possible famine and will upset the entire rationing plan of the food administration unless they buy sugar only as it is needed and limit their consumption to three pounds a month for each person in the household, F. B. Mumford, Federal food administrator for Missouri, declared today.

"This three pounds a month plan, if strictly adhered to, will insure an adequate supply of sugar," said Mr. Mumford. "It is a generous allowance compared to that of other countries. In England only two pounds a month are allowed, one in France (when it can be obtained), and one in Italy.

"It is the aim of the food administration to distribute available supplies of sugar equitably. But this cannot be done if "repeaters persist in their unpatriotic attempts to buy more than their allowance and to hoard a supply against a potential famine. Missouri has been allowed a certain amount of sugar on the basis of three pounds a month for every person in the state, and it can be seen that if "repeaters" buy more than this they are going to cut down the allowance of their patriotic neighbors."

In this connection the food administration call attention to the law against hoarding sugar, flour and other foodstuffs. Those found guilty are liable to a fine of not more than $5,000 or imprisonment for two years, or both. Retail grocers may be required to keep a record of all sugar sales and "repeaters" will be considered food hoarders and will be dealt with accordingly.

Retailers are warned against selling sugar to other than their regular customers, and to see that an equitable distribution is made to all their customers. When a dealer suspects anyone of trying to repeat in sugar purchases he is cautioned against making the sale.

"The utmost care in the purchase and use of sugar must be exercised at this time," said Mr. Mumford. "If the conservation measures of the food administration are lived up to by householders there will be no actual famine. But we cannot emphasize too strongly the necessity of the housewife's limiting consumption of sugar in her household to three pounds a month a person, and of buying only as it is needed All other users of sugar are on strict rations and can obtain a supply only on certificate.

"The United States Food Administration appeals to the patriotism of the American people to limit their consumption of sugar to three pounds a month a person, which is a generous allowance and adequate and to reduce this to even a lower figure if possible."

IT STOPPED MY SUFFERING

Said Mrs. Jaynes, Speaking of Lydia E. Pinkham's Vegetable Compound.

Anderson, S. C.—"I got into an awful condition with what the doctors said was an organic displacement. I would have pains so badly that they would have to put hot clothes on me and give me morphine. The doctor said I would never be any better without an operation and I would never have any children without it. A neighbor who knew what your medicine would do advised me to give Lydia E. Pinkham's Vegetable Compound a trial. I did so and it made me a well woman and the next September I gave birth to a healthy baby boy."—Mrs. SALLIE JAYNES, 37 Lyon St., Anderson, S. C.

The letters which we are constantly publishing from women in every section of this country prove beyond question the merit of this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound.

MAY DRAFT DOCTORS NEEDED

Must Have 50,000 and Will Bind All to Oath to Go "Whenever and Wherever Called."

Washington, July 19.—The government is about to assume control of the entire medical profession in the United States, to obtain sufficient doctors for the fast growing army, and at the same time to distribute those remaining to the localities or services where they are most needed for civilian work.

This mobilization is to be accomplished either by enrolling all doctors in a volunteer service corps, under pledge to accept whatever service, military or civilian, is assigned them by the governing body of the corps, or, if the voluntary plan is not successful, by legislation providing for drafting them into government service.

Medical officers of the government believe compulsory conscription will not be necessary.

Organization plans for the volunteer medical service corps already have been made, and enrollment started in a few states under authority of the Council of National Defense. Instead of enrolling in this corps only those physicians not suitable for military service, either because of age, physical infirmity, dependency or institutional or public need, as planned at present, the government is expected shortly to throw open the membership to all doctors, and to bind them with a pledge "during the present emergency to accept service, military or civilian, however, whenever and for whatever duty, he may be called by the central governing board."

Under this projected plan the army and navy would take those physicians and surgeons best fitted for active duty, and who can be spared for civilian requirements. At the same time the government would maintain a continuous survey of the country, and assign doctors to those communities in which there are too few practitioners.

The practical operation, officials believe, would cause little of this relocation, however, since physicians who are needed in certain communities, hospitals, schools, or other essential civilian services, would not be commissioned in the army.

FREE SEED TESTING FOR MISSOURI FARMERS.

Missouri farmers have been losing many thousands of dollars every year by using seed of poor quality. These losses have occurred mainly because the farmers have not known how to find out whether the seed they bought was good seed or bad seed. The University of Missouri College of Agriculture wishes to remind farmers that in co-operation with the United States Department of Agriculture, it maintains a laboratory for the purpose of testing their seeds. This laboratory is equipped for rapid and accurate tests of seed for purity and germination, and the work is done free of charge.

Purity tests can be made and reports returned almost immediately. The germination tests require six days or longer, depending upon the kind of seed tested. It is possible, however, with most kinds of seeds for the farmer to secure samples from seedsmen, send them to Columbia for test, and then buy on the results of the examination. A half-teacupful of small seed, such as clover and grass seeds, is sufficient, provided it is a fair sample of the bulk from which it is taken. For large seed, such as the grains, a pint should be sent. All seed should be sent by mail with the name and address of the sender marked on the package, and a letter should accompany the sample, stating whether the sample is to be tested for purity, for germination, or for both.

This laboratory was established for the purpose of raising the general standard of seed used in Missouri, and it is hoped that farmers will make the fullest use of it. Samples should be addressed to the College of Agriculture, Columbia, Mo.

TWO BROTHERS MEET ON SHIP.

Cumberland, Md., July 20—Benjamin L. Martin, Jr., of the United States Marine Corps, and his brother, Edward V. Martin, water tender, both of the U. S. S. Arkansas, traveled on the ocean aboard the same ship for nine months, neither knowing that the other was aboard.

The boys met recently when they were leaving the ship at the same time to go on a furlough.

The brothers had not seen each other for nine years, prior to boarding the Arkansas—one as a marine and one as a sailor.

told them. I was never much of a person to talk about what I could do. I would just go ahead and do it and let somebody else sing my praises. I was always that way.

But I didn't have any use for a fellow I'd lick who would go and tell his big brother. After that I'd let him alone. Anyway, I'd let him alone till his big brother went out of town and then I'd make him sorry he'd taken advantage of me. I'd give it to him good then, and teach him a lesson he wouldn't soon forget.

It doesn't seem any time at all since I was back in Missouri licking all the other boys in town. Now when I look in the mirror I can hardly believe it. It now looks like Mont Blanc bathed in moonlight—and all the fellows I licked are now riding around in high priced cars and here I am tickled all over when a kind neighbor drops in and takes me out in his Ford.

Life doesn't turn out the way it ought. Good fighters don't get things the way they should.

I am pretty busy these days, but I am not so busy but what I can stop my work and go out for a ride with any kind hearted person who happens to have a car. But if the person drops in and wants to know if I want to go out for just a walk, then I have a lot of things on hand that must have immediate attention.

I don't know why it is, but I am always that way. I am not much of a walker, but I am a good rider.

Anybody who reads this and has a car and likes a good conversationalist can find me at home almost any time. Such a person doesn't need to call up or anything—he can just come around and honk once and I'll be down in no time. I am good at fast dressing. I might be in bed when the person called, but before he would know it I would be dressed and down in the car. I guess some of my fighting ability has gone into quick dressing. I don't care how much a person hates to wait with his car—I never delay him. He can give one honk and I am with him. I have always been that way.

The Individuality of Your Home Depends on its Furnishings

High grade furniture adds to the comfort and appearance of a home more than anything else about it. And high grade furniture has not advanced in price nearly as much as the cheaper grades. The main difficulty is in getting it.

We were fortunate in securing a very large stock and are prepared to supply our trade for the next six months at least. We have bought entirely of the good grade and medium priced goods, and the selections will be found large enough to cover all requirements.

We want to urge you to take advantage of this excellent stock and the reasonable prices we are asking for such good qualities. It may be some time before market conditions will be such that we can get anything we want whenever we want it—but we believe that you will find everything here that you could wish for in home furnishings.

IN DINING ROOM SUITES—

We have the largest stock we have ever carried in many good styles, and they are great values at the present prices.

IN MATTRESSES—

We have nearly double our usual stock, and in view of the fact that these goods will be hard to get you should choose from this stock while it is complete.

IN LIVING ROOM FURNITURE

Parlor suites, davenette suites, book cases, etc., we are showing some beautiful goods which we are sure you will find most pleasing.

IN BEDROOM FURNITURE

We are able to supply almost anything at any price. Especially well stocked in the new sanitary rail wood beds in several designs and finishes.

CROWDS VISIT CAMP

(Continued from page 1.)

camp. Cars began arriving shortly after noon and before 5 o'clock fully 1,500 persons were gathered to see the boys at their work and play. Included with the visitors was the Burlington Junction band of twenty pieces, who entertained with both an afternoon and evening concert. An addition to the afternoon program was an address to the boys by Rev. C. Emerson Miller, pastor of the Christian Church, of Maryville. Rev. Miller expressed to the scouts the pleasure it had been for the citizens of Maryville to provide them with an outing, where in practical experience some of the big things in life might be learned, and where the ideals of scoutcraft could be developed. The scouts were impressed with the ideals pictured for them whereby they might develop into reliable and trustworthy citizens to take the places of the older men when they grew to manhood.

The water detail had a busy time keeping the crowd supplied with drinking water, and were kept hard at work all afternoon and evening. Most of the visitors brought lunches and remained on the grounds until after mess time. Parents of the scouts appreciated the gift of a big box of licorice candy from Mr. Conrad Yehle, and 100 packages of chewing gum and sweets from Ed Godsey, of the City News Stand.

On Thursday afternoon a riot was almost created in camp when a car, carrying a big freezer of ice cream, the gift of Frank Reuillard, pulled up, and it was hard to have to wait until time for it to be opened.

Following the address of Rev. Miller, swimming call sounded and the crowd went to the shaded banks of the Nodaway to watch the youngsters in the water. Several swimming tests were given, together with a demonstration by Assistant Scoutmaster Frank Green of saving a drowning person.

Sunday school was held in the morning in a grove adjoining camp, under the trees with Scoutmasters M. A. Peery and R. D. Corken in charge, with Bible stories a feature of the program. In the evening Dean H. G. Colbert, of the Maryville Normal School, made a short talk, after which good turn reports were given and Assistant Scoutmaster Frank Green interested the boys in a story of the creation.

In the morning Scoutmaster A. M. Crooke and a detail of twelve scouts hiked to Skidmore, where they attended services at the Methodist Church, going on invitation of the business men of Skidmore and Pastor Harrison, that they might be told something of the scout movement.

Rev. Harrison dispensed with the sermon and in its place Scoutmaster Crooke explained the Boy Scout movement and organization, and what it offered in training and character building, also telling of the organization of the Maryville local council, of business men and citizens who have decided that an investment in scout craft for the boys was a good one.

On Friday morning Photographer Ralph Marcell took several large group pictures of the scouts and this afternoon Photographer James Carpenter secured a number of group pictures of the scouts, the camp and its surroundings, which he will make into a souvenir booklet.

A feature of Friday night's program was the presentation to Scout Emil Coler of an honor medal from the government in recognition of services in selling war savings stamps. Coler is the first Maryville scout to receive the honor.

The boys expect to leave camp early Wednesday morning for their homes, and on Tuesday night will have their farewell campfire. This has been one of the big features of the camp when story-telling and songs have kept the boys interested until tattoo had sounded. Taps fifteen minutes later finds every scout tired and ready for sleep.

Some Athletic Events.

On Friday afternoon a series of swimming races and long distance diving contests were held on the river, and were witnessed by a large crowd of visitors. In the twenty-five yard swim, with eleven entries, the race was won by Hoblitzel, of Skidmore, in 27 seconds; P. Brown, Maryville, second.

In the 50-yard swim, Leon Noel, of Maitland, won first place, 61 seconds; George Smith, Maryville, second, 66 seconds. In the 75-yard swim, Hoblitzel was first, 1:53; William Gaugh, Maryville, second.

In the long distance diving events Hoblitzel again took first place, with Joy, of Maitland, second. A big diving board, built by the scouts over a fine stretch of river, with about eight feet of pater, proved an ideal place for events of this nature. The scouts also built a bridge across the river so visitors could witness the races from either side.

On Saturday afternoon a track meet was held, with the Maryville scouts contesting against Maitland, Burlington Junction and Ravenwood. Athletes from the last three towns took most of the firsts, the high jumping event going to Maryville.

Boy Injured by Horse's Kick.

Roy Campbell, the 14-year-old son of Mr. and Mrs. Alpha Campbell, of Ravenwood, sustained serious injuries when kicked in the face yesterday morning by a horse. The boy was harnessing a team to drive to Sunday school, when the accident occurred. A doctor was called and after a short time restored the boy to consciousness. His condition is regarded as improved today.

AMERICANS DRIVE THE HUNS BACK

(Continued from Page 1.)

oners, over 100 guns and many trench mortars and machine guns.

With the American Army on the Aisne and Marne, July 22.—While the Germans continue to pour reinforcements which are necessarily slow to advance, south of Soissons, at the same time they are withdrawing supplies and heavy artillery from the southern part of the Aisne-Marne salient northward to a point past Soissons. The Boches fear the allied advance to Marne. While the Americans participated in the capture of German guns, there has been terrific fighting in the area southwest of Soissons. One machine gun unit was cut off by steady enemy fire and fought twenty-four hours without food. Volunteers under a heavy fire rushed two side cars of food into bursts of the hottest kind of fighting. The Americans at 4 o'clock this morning forced exceedingly strong enemy positions, which had been holding up our advance around the southern edge of the plateau, south of Soissons.

Paris, July 22.—French and Americans broke up strong German counter attacks in the sectors of Grisolles, Bezeu and St. Germin, the war office announced this morning. INSTRUCT NEW MEN

be named.

The circular states that a large number of young men in Class 1, who are soon to enter the service, have no idea of the system of the army. Many do not know what the war risk insurance bureau will do for their dependants, while others do not understand the allotment provision in the army regulations. In short, it states, many are entirely ignorant of the outcome after they are drafted.

The instruction board suggests that the men be called together at intervals and be given instructions in several things regarding army life. Many young men are not willing to enter the army, chiefly because they do not understand details. Therefore, such topics as "Why America Entered the War;" "Why America Must Win the War;" "The Necessary Character of the American Soldier;" "The Avoidance of Liquor as a Patriotic Duty;" and "The Government's Provision for Allowances and Allotments," will be discussed.

Many parents do not encourage their sons to accept the draft call, because of financial difficulties, it is explained. For that reason, it is intended to have all young men readily understand just what amount of money will be forthcoming to their dependents, when they enter the service. The medical department of the army reports that many young men come to the camps laboring under the delusion that they should not have to enter the army. It takes months of the most rigid discipline to encourage the men to do their duty, the report indicates. All such mental feeling can be eliminated before the men enter the service, through the boards of instruction, it is contended.

While this instruction is intended primarily for the men who are about to leave for camp, it is also urged that parents of the men take advantage of the opportunity to learn something of the requirements of the service. Men in deferred classes in the draft are also welcome to attend the meetings.

FOR EXTRA FLOUR AND SUGAR

Threshing and Haying Outfits, Farmers and Grocers Are Asked to Learn the Regulations.

I have repeatedly stated the plan for taking care of extra help for harvesting and threshing, both by instructions to the dealers, and by several notices in the papers, but it seems that many pepole still do not understand. Please read this carefully and cut it out, and post it up where you will have it before you. The rule is this: If the farmer is going to have extra help, he should go to his grocer and explain to the grocer as near as he can how many extra meals he expects to serve, and the grocer is then instructed to sell to Mr. Farmer extra flour at the rate of six (6) pounds for every ninety (90) extra meals, and he may sell this flour without substitutes; then he may sell extra sugar at the rate of one (1) pound for every thirty (30) meals, or three (3) pounds for every ninety (90) meals.

The grocer can handle this matter in this way without any special permit from me, and I hope they will post this rule up and follow it, as it is absolutely impossible for me to handle everyone of the cases and grant a special permit for each case, and it is unnecessary for me to do so because the grocer knows the men he is dealing with and can handle the matter as well as I could, and we are placing the farmers on their honor in the matter and expect them to deal fairly with the grocers in making their statements about extra help.

Yours truly,

F. P. ROBINSON,
